姫路城

EL CASTILLO DE HIMEJI / EL CASTILLO DE LA GARZA BLANCA

Con sus majestuosas vistas de la ciudad japonesa de Himeji, el impresionante Castillo de Himeji es una joya arquitectónica declarada Patrimonio de la Humanidad por la UNESCO. Construido como fortaleza en 1333, hacia el final de una época de guerras civiles, el castillo ha atravesado varias transformaciones a lo largo de los siglos. En 1600 se emprendió una gran reconstrucción que dio lugar a la estructura actual, conservada íntegramente hasta nuestros días, en un primer momento bajo el mando de los señores feudales y, más adelante, gestionada por el gobierno japonés. Laberintos de enrevesados senderos diseñados antaño para confundir y atrapar al enemigo tejen ahora un intrigante viaje para el visitante. Superviviente de guerras, terremotos, incendios y tiempos de paz, el Castillo de la Garza Blanca se erige como un sereno monumento a la cultura japonesa. Descubre los complejos detalles de la torre principal y la historia del castillo mientras construyes.

CHRIS MCVEIGH
Diseñador sénior de LEGO®

UN TRIBUTO A UN VENERADO MONUMENTO

🍷 "En 2023 se cumplen 30 años de la declaración del Castillo de Himeji como Patrimonio de la Humanidad por la UNESCO, y su arquitectura e historia siguen siendo una especie de misterio por descifrar. Creamos la torre principal como punto focal natural y jugamos con las proporciones y las escalas para que destacara. Si has visitado el castillo, puede que reconozcas algunos de sus interiores. Si no lo has conocido en persona, esperamos que despierte tu imaginación y curiosidad".

Sigue algunos de los enrevesados caminos, rampas y escaleras que recorren el castillo.

UNA ILUSIÓN ÓPTICA

El método de techado del Castillo de Himeji emplea tejas negras rectangulares y semicirculares entrelazadas. Varias capas de arcilla blanca recubren las tejas, dando a la cubierta un aspecto de malla de alto contraste cuando se observa de cerca. Sin embargo, a distancia, el dibujo de la malla adopta el color gris. Las tejas de este set son de color gris piedra oscuro para reflejar el envejecimiento de las tejas.

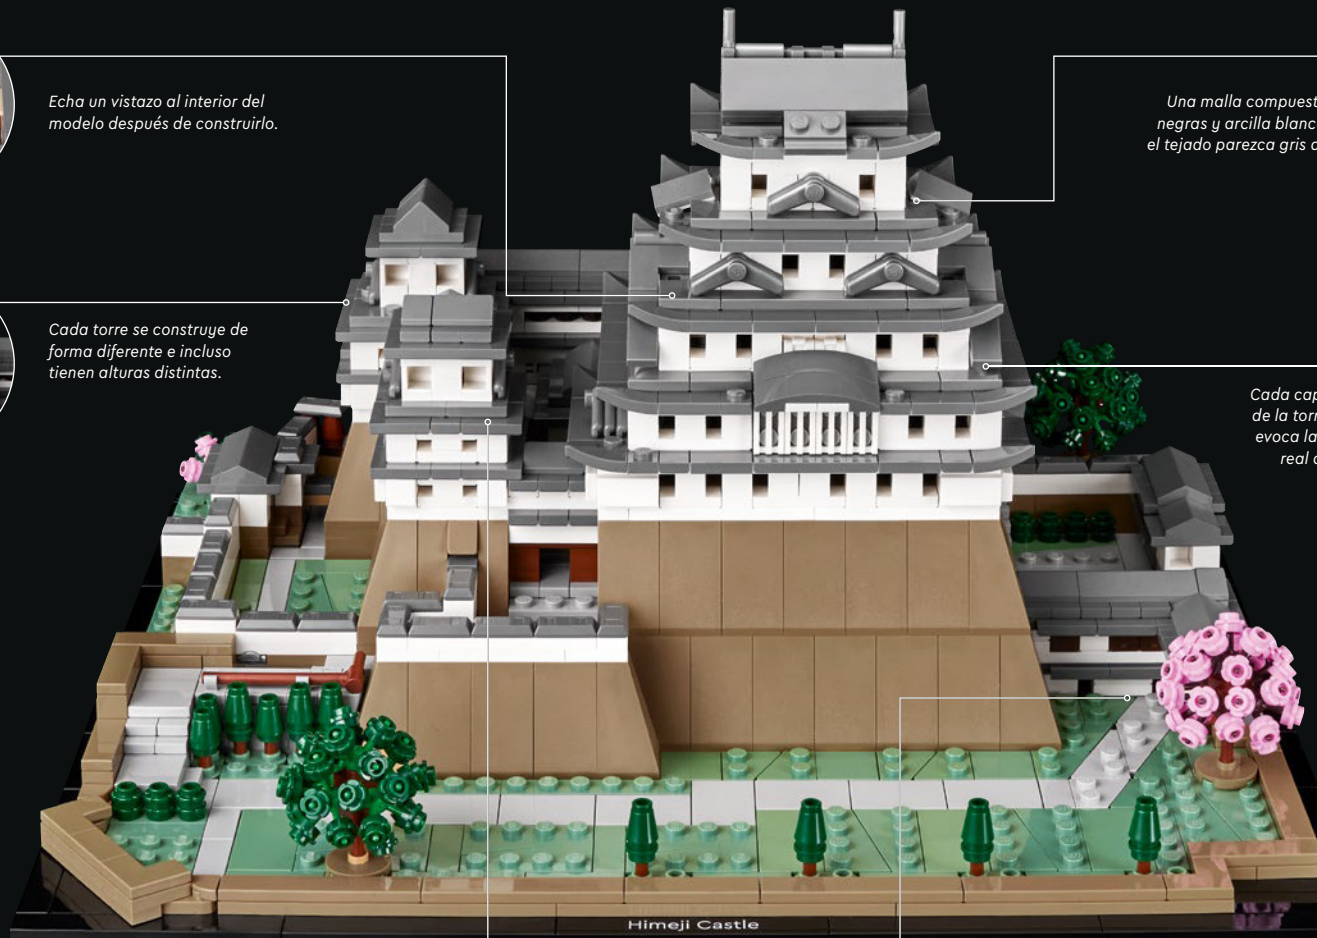

Echa un vistazo al interior del modelo después de construirlo.

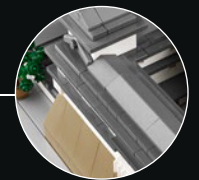

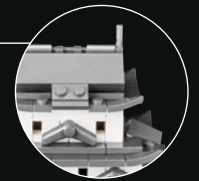

Cada torre se construye de forma diferente e incluso tienen alturas distintas.

Los ángulos irregulares predominan en todo el castillo y las murallas.

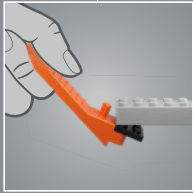

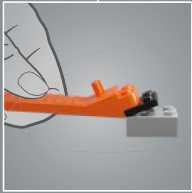

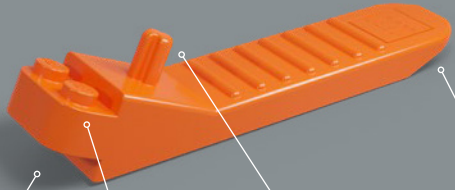

Una malla compuesta por tejas negras y arcilla blanca hace que el tejado parezca gris desde lejos.

Cada capa o planta de la torre principal evoca la estructura real del castillo.

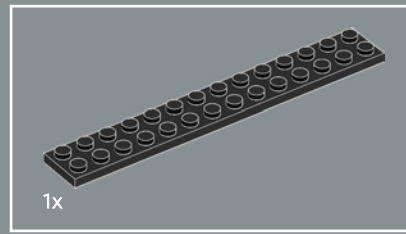

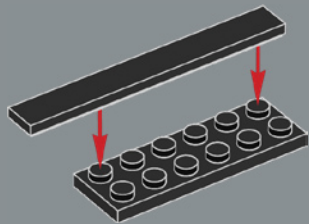

Decora los cerezos con flores rosas u hojas verdes.

Elige la placa con el nombre del modelo en inglés o japonés. Siempre podrás sustituirla si cambias de opinión.

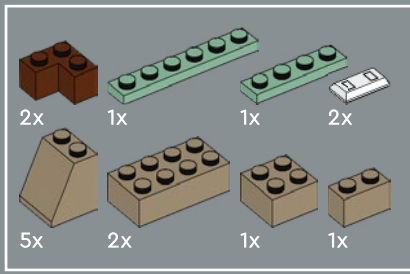

En 1993, el Castillo de Himeji fue declarado Patrimonio de la Humanidad por la UNESCO, reconociéndose así la obra maestra y su carácter representativo como culmen de la arquitectura japonesa de castillos de madera.

Uno de los rasgos por los que la arquitectura del castillo es tan interesante es que muchos de los muros, torres y caminos están colocados en ángulos irregulares.

Durante la restauración de 2009–2015, varios lados del andamiaje exterior se cubrieron con representaciones artísticas lineales del castillo para que el emblemático monumento siguiera siendo visible en el horizonte de Himeji.
